Objective

Passionate Computer Science graduate (3.3 CGPA) specializing in **Artificial Intelligence, Machine Learning, Computer Vision**, and **Full-Stack Engineering**. Proven experience designing end-to-end GenAI pipelines (OpenAI API, Whisper, Encodec neural codecs), OpenCV computer vision tracking, and scalable cloud platforms. Seeking a high-impact role to build intelligent, production-grade systems.

Education

Aug 2025 **B.S. in Computer Science**, Dawood University of Engineering & Technology, Karachi, CGPA: 3.3
July 2021 **Intermediate (Pre-Engineering)**, Govt. Degree Boys College Gulistan-e-Jauhar, BIEK, C Grade
March 2019 **Matriculation (Science)**, The Crescent Academy, Karachi, BSEK, A Grade

Technical Skills

AI & Deep Learning	PyTorch, OpenAI API, Whisper AI, Encodec Neural Codec , Transformer Architectures, Prompt Engineering, DALL-E
Computer Vision	OpenCV (Python/C++) , ArUco Marker Tracking, Object Detection, Navier-Stokes Inpainting
Languages & DB	Python (Data Science & Automation), TypeScript, JavaScript (ES6+), C/C++, Java, SQL, MySQL, Firebase
Full-Stack Web	React.js, Next.js, TailwindCSS, Node.js, REST APIs, HTML5/CSS3, Bootstrap 5
IoT & Embedded	ESP32, ESP32-CAM, Arduino C++, Ultrasonic Distance Sensors, WebSockets, Bluetooth
Tools & Workflow	Git, GitHub, VS Code, MS Excel (VBA Macros), System Architecture, Debugging & Optimization

Professional Experience

Aug 2023 – Sept 2023 **Java Programming Intern (Remote)**, CodSoft
Strengthened object-oriented programming (OOP), data structures, and debugging through hands-on tasks.

Key Flagship Projects

Artificial Intelligence, Deep Learning & Computer Vision

Auto Blog AI **Python, OpenAI API, DALL-E, WordPress REST API, Rank Math SEO** [\[GitHub\]](#)

- **Autonomous GenAI Pipeline:** Automated web content scraping, LLM-powered SEO rewriting, and one-click WordPress publishing.
- Integrated automated AI featured image synthesis with DALL-E and dynamic Rank Math SEO optimization.

AI Video Dubbing & Neural Codec **Python, PyTorch, Whisper AI, Encodec, Deep Learning** [\[GitHub\]](#)

- **Multilingual Speech Suite:** Built automated speech translation and lip-synced video dubbing with Whisper AI.
- Fine-tuned **Encodec neural audio codecs** for ultra-low bitrate audio compression and speech restoration.

Bulk Watermark Hider Utility **Python, OpenCV, NumPy, Inpainting Algorithms** [\[GitHub\]](#)

- **Computer Vision Inpainting:** Created high-throughput batch CV script using OpenCV to detect, mask, and remove watermarks across image datasets with Navier-Stokes algorithms (zero pixel quality loss).

Follow Cart – FYP **ESP32, Arduino C++, OpenCV Computer Vision, Python** [\[Award Winner\]](#) [\[GitHub\]](#)

- **Won 10,000 PKR Cash Prize Award by iCreativez Karachi** for outstanding Final Year Project.
- Built an autonomous smart cart with **OpenCV ArUco marker vision tracking** and ultrasonic distance fusion.

Full-Stack Web & SaaS Engineering

TaskHubDigital **Next.js, React, TailwindCSS, SEO** [\[Live Demo\]](#) | [\[GitHub\]](#)

- Engineered a high-performance digital agency platform providing web development and digital solutions with responsive UI/UX and SEO optimizations.

Pharmacy Inventory Manager **React, Firebase, Chart.js, TailwindCSS** [\[Live Demo\]](#) | [\[GitHub\]](#)

- Developed a full-stack pharmacy management system with real-time stock tracking, cost vs. retail margin analytics, sales demand generation, and automated PDF reporting.

ESP32-CAM Spy Car **ESP32-CAM, Arduino C++, WebSocket, HTML5** [\[GitHub\]](#)

- Built a surveillance robotic vehicle featuring low-latency live video streaming over WiFi & Bluetooth with an embedded HTML5 control dashboard.

Honors & Certifications

- **iCreativez Cash Prize Award (10,000 PKR)** — Awarded for Excellence in Final Year Project (Follow Cart with OpenCV Vision).
- **Coursera / Google:** Google Prompting Essentials (Specialization in Prompt Engineering & GenAI Workflows).
- **Coursera / Google:** Google IT Automation with Python (Professional Certificate in Scripting & OS Automation).
- **Saylani Mass IT Training Program:** Full-Stack Web Development Certification (2024).
